## What a BlueScope warranty means for you

Your home is likely to be your biggest financial investment and your largest asset. Having a BlueScope warranty covering the important steel building products in and around your home is an investment in peace of mind.

BlueScope is one of the leading steel companies in Australia and New Zealand, with a proud 95 year history. BlueScope products are high quality and made for Australian conditions. They have been subjected to years of rigorous testing ensuring a long lasting performance. Beautiful, durable and versatile, they lend themselves to a wide range of building applications from roofing, walling, fences, sheds, guttering, house frames to water tanks. Our technical experts carefully consider the environments in which these products are located and installed. Choosing the right product for the right environment ensures you maximise your BlueScope warranty and minimise any potential concern by protecting your investment. Our BlueScope warranties are available for up to 36 years for roofing and 50 years for framing, depending on the product type and location of your build.

### Advantage

Our Steel is **BlueScope Steel (Steel made in Australia)**. Not an Overseas product passed off as Australian made because it is roll formed in Aust. (IT IS STILL IMPORTED STEEL) Your **Warranty** is with BlueScope Steel not the place of Purchase. Providing piece of mind, for the years to follow.

Roller Doors conform with Wind rating requirements of the National Construction Code. Our Materials are supplied by the largest National professionals in our industry.

**Colorbond**  
**Tough**

Base Plates up to 8mm thick on slab or Galvanised or Embedded into concrete.

All connection points are **Engineered Bracket connections** across our product range.

**WANT TO BUILD YOUR SHED**, our Sheds come complete with a detailed Manual.

Every shed comes with colour matching wall and roof screws.

Colour Choice ANY COLORBOND COLOUR (**we do not restrict colour options**).

Roof Sheeting is .42BMT or .48TMT. Wall sheeting can also be supplied same thickness.

You will receive every nut, bolt, washer and component that you will need to build your new garage or shed.

### Value

Covering Australia with STEEL MADE IN AUSTRALIA by BlueScope Steel.

Local people servicing locals, who know the area and are familiar with the requirements.

Our Product range is engineer designed and certified by our Qualified Engineer and comply with the latest BCA requirements.

No Tek screws holding main brackets together, on our buildings.

**Why not add - PA Door – Insulation & Wire – Window – Sliding Door – Awning**

**Colorbond**<sup>®</sup>

**Zincalume**<sup>®</sup>
