Horse Shelters Paddock Shelters

Horse shelters are a great solution for those looking for something portable and practical.

Our horse shelters utilise a steel frame structure that bolts together to offer excellent protection from the sun and extreme weather conditions. The design is specifically engineered to be simple and economical without sacrificing strength and durability.

These open front structures are carefully designed to reduce the risk to the horse. Engineered without sharp edges, they are cleverly constructed to reduce chewing and cribbing.

Our standard designs feature an extra girt for added strength. Girts are 1200mm so you can easily add optional standard size ply or rubber wall lining. All components are delivered to the site where they can be erected and bolted together quickly with minimal cutting required – and it's just as quick to disassemble and relocate at a moment's notice. Making this the simplest, easiest way to provide excellent shelter for your horses wherever you need it.

OUR SHELTERS ARE AS PROTECTIVE AS YOU ARE.

Our standard range

SINGLE HORSE SHELTER

L: 3.1m	W: 3.1m	H: 2.7m (low end)
---------	---------	-------------------

LARGE SINGLE HORSE SHELTER

L: 3.9m	W: 3.8m	H: 2.7m (low end)
---------	---------	-------------------

DOUBLE HORSE SHELTER

L: 6.1m	W: 3.1m	H: 2.7m (low end)
---------	---------	-------------------

LARGE DOUBLE HORSE SHELTER

L: 7.7m	W: 3.8m	H: 2.7m (low end)
---------	---------	-------------------

*Note: The design may alter from one wind region to another and combinations of structural components may change to that in the image shown (diagrammatic only).
